

# Public Service Announcement

## Situation 1

Jessica is always asking John to come to her events (soccer games, family barbecues, study sessions, parties, etc.). While John attempts to go as often as he can, sometimes he is too busy. When he does miss one of Jessica's invitations, she ignores him for a couple of days because she is angry at him.

A relationship where one or both partners are extremely dependent or expect to be with each other 24/7 can be very unhealthy, and it may not give you the opportunity to grow as individuals.

What concerns would each of the following have:

Jessica

John

Jessica's friends and family

What message do we the provide to the public regarding an unhealthy relationship like Jessica & Johns?

How much do you think youth know about this topic?
